# The following pages will help you track your progress during the first 30 days on the Optimal Weight 5 & 1 Plan.

As you begin on your journey to optimal health, we will help you integrate manageable microHabits of Health into your life. While these habits might seem small, they can bring extraordinary results. Over time, they make healthy habits second nature. During the next 30 days, you will begin to see the benefits as your transformation unfolds.

We encourage you to lean on your Coach and the **OPTAVIA** Community for support and track your progress in *Your LifeBook* and Habits of Health App.

*be extraordinary today*

Week 1:

## Habits of Healthy Eating & Hydration

microHabit of Health 1:  
**Drink one extra glass of water a day.\***

Start the Optimal Weight 5 & 1 Plan and eat six small meals per day. Then drink one more glass of water per day than you currently do. Whether in the morning, with a Fueling or in the evening, just one additional glass can be a big win. Staying hydrated is essential to health and helps fight food cravings.

Today and this week, focus on drinking one additional glass of water each day. Use the Habits of Health App to track your water and Fuelings from day 1.

**Recommended readings:** Part 2.5 in *Dr. A's Habits of Health, Second Edition* and Element 10 in *Your LifeBook*.

\*We recommend drinking 64 ounces of water each day. Consult with your healthcare provider prior to changing the amount of water you drink as it can affect certain health conditions and medications.

Week 2:

## Be Mindful

Continue your week 1 microHabit of Health by incorporating an additional glass of water daily until you reach eight glasses (64 ounces).\* Note the amount of water you've had each day in your log or by using the Habits of Health App.

microHabit of Health 2:

**Write one sentence in your OPTAVIA weekly journal each day.**

As your transformation begins with healthy Fuelings, you will begin to learn mindfulness. Each day, reflect on a moment when you felt a craving and how you handled it or write about an accomplishment. One sentence is all it takes. Mindfulness helps you avoid choices that lead you away from success. Incorporating this habit into your daily routine will give you an important record of your thoughts and feelings during your **OPTAVIA** journey.

 **Recommended reading:** Element 4 in *Your LifeBook*.

\*We recommend drinking 64 ounces of water each day. Consult with your healthcare provider prior to changing the amount of water you drink as it can affect certain health conditions and medications.

# Quick Tips

## Day 8

Practice mindfulness as you eat your Fuelings this week, consuming food slowly and thoughtfully. Spend at least 15 minutes eating each meal. Cut bars into small pieces, and eat one bite at a time. Reflect on changes you're experiencing. What does an optimal life look like to you?

## Day 9

As you practice mindfulness, you will become more connected to what matters most, and begin seeing your biggest opportunities. Connect with your **OPTAVIA** Coach for suggestions and support.

## Day 10

Hydration alert! As you learned last week, hydration is vital for your health and for reaching your goals. So keep building on this Habit of Health. Use the Habits of Health App to track your water intake!

## Day 11

With **OPTAVIA**, you're never alone. In addition to your **OPTAVIA** Coach, there are thousands of people in the **OPTAVIA** Community to support you. Connect with them on social media at **#OPTAVIA** and **#LifelongTransformation** to share how mindfulness has helped you.

## Day 12

On occasion, take some extra time when preparing your Lean & Green meal to be mindful of what you're doing and how it's making you feel. While we lead busy lives, a new and different recipe can really spice things up.

## Day 13

Progress vs. Perfection. Most of us try to succeed by being perfect. So when we just need a minor course adjustment, we may feel we've failed. Your **OPTAVIA** Coach can help you move past these feelings and give you fresh perspective along the way, as they may have been in your shoes and can help steer you to success. If you haven't yet started using *Your LifeBook*, this is a great time to start!

## Day 14

Celebrate the past week and plan for the second half of your **OPTAVIA** journey! Your **OPTAVIA** Coach will celebrate your victories with you and offer support from their own experiences. Share your win of the week on social using **#OPTAVIA** or **#LifelongTransformation** and tag your **OPTAVIA** Coach.

Week 3:

## Transform with Habits of Healthy Sleep & Energy Management

Congratulations! You are two weeks in! You're drinking water and journaling daily, well on your way to integrating new Habits of Health into your daily life. This week's theme is healthy sleep. Sleep is a crucial part of optimal health, but is often overlooked. Getting seven to eight hours of restful sleep nightly may help with stress, food cravings and overeating. Those are some big rewards!

microHabit of Health 3:

**Drink one less cup of coffee, soda or other caffeine source after 12 noon each day.**

To build Habits of Healthy Sleep and Energy Management that support reaching a healthy weight, your new microHabit of Health is to drink one less cup of coffee, soda or other caffeine source after noon each day. According to the FDA, the average American drinks about 300 milligrams (mg) of caffeine per day, equivalent to three cups of coffee or eight cans of soda. If you eliminate caffeine after noon, you're more likely to get a restful night's sleep!

Additionally, following a reduced-calorie meal plan might make you more sensitive to caffeine and keep you even more awake at night.

**Recommended readings:** Part 2.13 in *Dr. A's Habits of Health, Second Edition* and Element 19 in *Your LifeBook*.

# Quick Tips

## Day 15

Drinking less caffeine can improve your sleep quality. Your **OPTAVIA** Coach is a great resource for simple steps leading to healthier sleep.

## Day 16

As you build on microHabits of Health, you'll start to see some significant transformations. Drinking more water and practicing mindfulness, together with this week's microHabit of sleep, sets the foundation for optimal health and wellbeing.

## Day 17

Had a long day and need an extra crunch? An optional snack can be just the boost you need to fuel your day in a healthy way. Check with your **OPTAVIA** Coach for ideas, or refer to the 'Optional Snacks' section in this guide on page 21.

## Day 18

Feeling more energetic as you focus on optimal health and your new microHabits of Health? Use that new energy to share an accomplishment with your **OPTAVIA** Coach, and with the **OPTAVIA** Community via social media using **#OPTAVIA** and **#LifelongTransformation**

## Day 19

Most of us are connected to our mobile devices all day and well into the night. By charging your phone out of reach, you'll likely get more sleep, and enjoy relaxed time to reflect on the day's successes and prepare for tomorrow.

## Day 20

By now you will have found some favorite Fuelings. Tell your **OPTAVIA** Coach which options you love and make sure you're set for your next **OPTAVIA** Premier order. Your **OPTAVIA** Coach can show you how to edit your order template to get all of your new found favorites!

## Day 21

It's time to celebrate! For three weeks, you've been integrating the four elements of our proven system, including the Habits of Health App and *Your LifeBook* into your daily life. Three weeks ago, did you think this was possible? Use social media to share how your life has been transforming. Be sure to tag your **OPTAVIA** Coach and use **#OPTAVIA** and **#LifelongTransformation**

Week 4:

## Share the Habits of Healthy Motion

Intense workouts, especially if you're not ready, may do more harm than good. The Habits of Health you've already integrated—eating healthy Fuelings every two to three hours, drinking more water, journaling, sleeping better by consuming less caffeine and being mindful – are making a difference in your life. Now, we recommend you start being more active with this microHabit of Health.

microHabit of Health 4:  
**Stand for an extra 2 minutes a day.**

Your new microHabit of Health for the week is to stand up during your favorite TV show or while reading a book. Standing activates almost every muscle in your body as you stabilize your posture. It sounds small, but one of the biggest health recommendations in years is to sit down less, so 2 minutes extra of standing a day is a good start! Share this practice with your family and friends to introduce more motion into their lives.\*

**Recommended readings:** Parts 2.9-2.12 in *Dr. A's Habits of Health, Second Edition* and Elements 17-18 in *Your LifeBook*.

\*When on the Optimal Weight 5 & 1 Plan, we recommend 30 minutes of moderate exercise while limiting exercise to 45 minutes of light to moderate physical activity each day. We also recommend checking with your healthcare provider before starting any exercise program.

# Quick Tips

## Day 22

You now know sitting for long periods can be unhealthy. As you integrate standing more as a microHabit of Health, think about friends and family who could benefit from a bit more activity. How can you share the Habits of Healthy Motion?

## Day 23

Sometimes when we start our journey, our goals center on the scale. But we believe optimal health is about what's added to your life, not what's subtracted. Reflect on your larger health goals. List reasons why you joined the **OPTAVIA** Community and share them with your **OPTAVIA** Coach. This will give you positive reinforcement when you need it.

## Day 24

Two more minutes of standing will build a foundation for more activity. Spread the benefits to people you care about most. By walking with your family to the store, strolling after dinner or hiking with the kids, you're building Habits of Healthy Motion for those you love!

## Day 25

Note how your clothes fit as your body changes, which doesn't always show up instantly on the scale. Remember, it's about a healthier you, living your best life. Journal how you feel physically, mentally and emotionally. Who in your life might benefit from what you're doing? Tag them in a post with your **OPTAVIA** Coach on social media, or connect them directly. You can even pay it forward and decide to coach them yourself!

## Day 26

Tried one of our Lean & Green recipes? Awaken your taste buds by mixing things up a bit! Visit our **OPTAVIA** Pinterest page or our **OPTAVIA** App, share your favorite recipe and include friends who may be ready for optimal health. Tag your **OPTAVIA** Coach as they may have recipes to share.

## Day 27

You've been journaling for several days now. Today, reread your daily entries and reflect on your next health goals. Your **OPTAVIA** Coach and *Your LifeBook* will help you continue to successfully integrate the Habits of Health and create a plan of action to ensure your continued success for Lifelong Transformation, One Healthy Habit at a Time.

## Day 28

One of the best ways to make physical activity even more enjoyable is to share the experience. What group activity can you arrange for family or friends? Share with your social networks and when local connections comment, invite them to join you! Be sure to tag **#OPTAVIA** and **#LifelongTransformation**

*embrace this day and  
the days ahead*

Week 5:

## Celebrate and Continue

You are about to finish your first 30 days! The steps you've taken are remarkable. You may have had challenges at times, but the obstacle is the way. You made it this far, and that momentum is powerful as you continue on your transformational journey.

microHabit of Health 5:  
**Celebrate Your Victories.**

Your independent **OPTAVIA** Coach and *Your LifeBook* will help you reflect on and celebrate the integration of each new habit along your journey, giving you the opportunity to step back and say, "Wow, I really did that!" Share your excitement on Facebook and other social media channels, and tag your **OPTAVIA** Coach using **#OPTAVIA**

Call your **OPTAVIA** Coach to celebrate and discuss your next 30 days!
